Missions of *Parents' Guide*

The design of  supplementary exercises is best known for its concise and clear layout with an adequate number of exam questions, which aims to facilitate students' self-learning at home and strengthen their ability, so as to enhance their learning performance at school. Besides, with parents' appropriate guidance, children's self-learning outcome would be more remarkable, enhancing academic performance.

Therefore, we have especially prepared this *Parents' Guide* with the following missions:

- ❶ Introducing the formats and marking schemes of the Examinations for Secondary School Places Allocation (SSPA) purpose in detail, helping parents fully understand the Exams.
- ❷ Revealing Five Tricks to score high in the Exams for SSPA purpose, helping parents tutor their children more effectively.
- ❸ Providing detailed answers for parents to guide their children in a convenient and practical way.
- ❹ Scoring Tables for each Paper are included for parents to know their children's understanding of each key assessment point!
- ❺ Parents tutor with ease while students learn effectively, swiftly enhancing both the ability and performance of the students simultaneously!

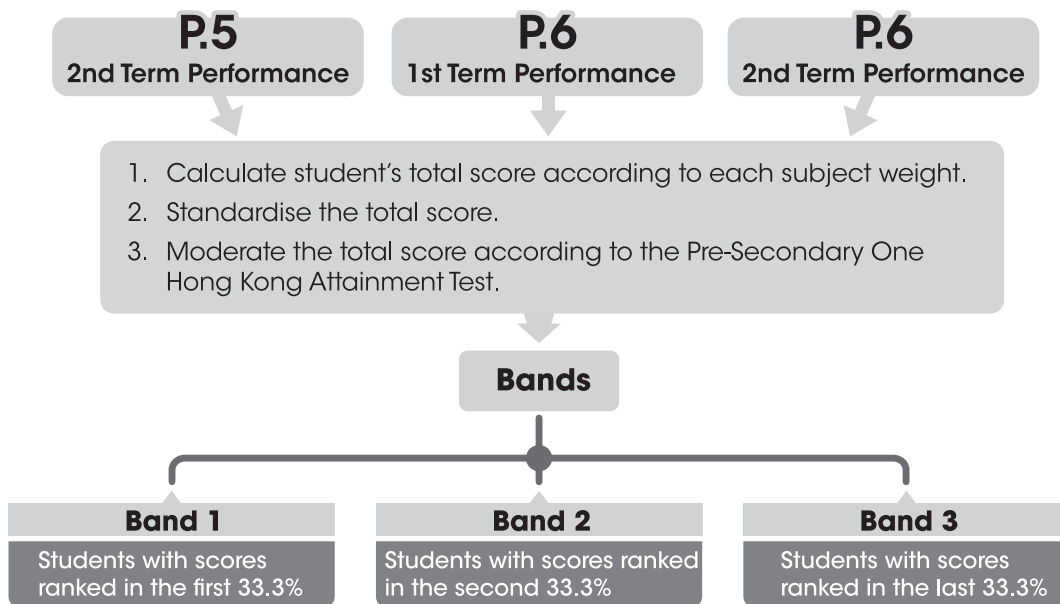

Tips for the Exams for SSPA Purpose •

Getting to Know the Exams for SSPA Purpose

All primary schools participating in the Secondary School Places Allocation would submit the total score of each student in their three Exams for SSPA purpose in Primary Five Second Term, Primary Six First Term and Second Term to the Education Bureau, which would:

1. Multiply student's score in each subject by the subject weight to calculate the total score.
2. Standardise student's total score based on the average score and standard deviations of the students of that school in each subject. (Details will be discussed in the Moderation Mechanism part later.)
3. Moderate according to the past performances of the school's graduates in the Pre-Secondary One Hong Kong Attainment Test and give a score to all Primary Six students in Hong Kong.

The Education Bureau would use this score to rank all students from the highest to the lowest and divide them evenly into three Bands: (from high to low) Band 1, Band 2 and Band 3.

Note

Band 1 students would be allocated places first, hence the better performance a student achieves in the internal Exams for SSPA purpose, the more advantaged he/she will be in the Central Allocation.

5 Tricks to Score High in General Studies

Sample

How can students get high scores in the General Studies Exams for SSPA purpose and get into Band 1? The following introduces '5 Tricks' for students to get high scores, helping parents enhance their children's exam skills.

Trick ① Memorise effectively to have a double effect

Students must grasp the knowledge and concepts of General Studies in the exams, and effective memorisation helps children remember the key points about a topic firmly, doubling the effect with half the effort. Parents can refer to the following method to enhance children's learning efficiency.

➤ **Drawing mind maps** Parents can suggest their children to draw mind maps based on the learning themes, adding the themes, key learning points of topics, and relevant knowledge and concepts progressively from big area to small area. Mind maps should show clearly the relationship between the themes, topics and knowledge and concepts, which facilitate regular study and pre-exam preparation.

Example

► Theme: The last dynasty of China

Scoring Tables of General Studies Exam Papers for Secondary School Places Allocation purpose (6A)

Paper 1

Theme	Topic key points	Question number	Marks
